School Breakfast Equipment List

The Jump Start school breakfast leadership team should create a list of equipment and supplies that your school will need to successfully implement your new breakfast model, such as:

- serving kiosks, carts, or tables
- point of sale units
- food/beverage coolers and containers
- bags or boxes for meals
- classroom cleaning supplies
- more trash cans and bags
- more places for students to eat

Refer to Step 4 of the Jump Start School Breakfast Toolkit for a list of equipment and supplies.

List the equipment and supplies to start your new Jump Start school breakfast model below:
